Ömer Çakır

Ankara, Turkey • omercakir2323@gmail.com • **LinkedIn** • **GitHub** • **omercakirr.com**

Education

Bilkent University Ankara, Turkey
Computer Technology and Information Systems (CTIS) Sep 2024 – June 2028 (Expected)
GPA: 3.36 / 4.00
Coursework: Algorithms, DBMS, OOP (Java), Web Development (Frontend & Backend), Computer Networks.

Experience

Remote
CUA Tutor - XAI January - 2026 October

- Evaluating **LLM outputs** for **technical accuracy**, logical consistency, and linguistic precision.
- Managing international freelance contract and invoicing workflows via **Remote.com**.

Hybrid
Software Developer Intern - Fonelco August – September 2026

- Built a full-stack LAN observability platform: concurrent **Go** ICMP/ARP/SSH discovery (goroutine worker pools) into **TimescaleDB**, a **Go** REST API, a **React** topology UI with L2 k-shortest paths, and a **TensorFlow** LSTM for CPU, memory, temperature, and traffic forecasts.

On-Site
Software Developer Intern - Clonify Labs June 2026 – July

- Took a full-stack role in the Spinstat sports analytics platform, developing and deploying a **Python/FastAPI** backend, **Next.js frontend**, and a **YOLO/OSNet**-based computer vision pipeline for real-time tennis analysis.

Projects

Greenmarkt (Sustainable Marketplace) *Node.js, Express, MySQL, Docker • [GitHub]*
Building a collaborative **full-stack marketplace** featuring secure **user authentication** and containerized **MySQL**.

E-Commerce Web Application *Django, Python, SQLite • [GitHub]*
Built a full-stack e-commerce solution using **Django ORM** for relational data management.

Bilkent Attendance Counter *JavaScript, Browser API • [GitHub] • [Web Store]*
Developed a live **Chrome Extension** automating attendance tracking via STARS system **DOM manipulation**.

Tap the Black Tiles (Web Game) *HTML5, CSS3, JavaScript • [GitHub]*
Developed an interactive, reflex-based web game utilizing dynamic frontend **event listeners**.

Graphics-Based 2D Game *C++, OpenGL (GLUT) • [GitHub]*
Programmed an interactive **2D game engine** from scratch exploring **computer graphics** fundamentals.

Skills & Interests

Technical Skills: Java, Python (Django), C++, JavaScript (React, Node.js), SQL (MySQL), Git, Docker, HTML/CSS.
Languages: Turkish (Native), English (Upper-Intermediate).
Interests: Guitar/Saz, Fitness, Swimming, Story-driven Gaming (PS5).
